

now for installation with 12 cm ground clearance and jump start

Sofa leg rest BA 10/12 – two armed

The confer leg rest is an ideal addition to armchairs and sofas. The construction (base frame built into the frame + leg support sled) allows an almost invisible installation and easy handling.

Functions

- Ergonomically inclined leg rest for fatigue-free sitting
- Can be extended and retracted in the base frame using a slide
- Triggering the function manually
- Spacers to avoid marks on the leg rest surface
- Visually retractable

Variants

- Base frame in various depths and widths
- Visible parts powder-coated in RAL colours or chrome-plated
- **Also with pull-out rails** (article number on request)

Technology

- Steel parts CDC (Cathodic Dip Coating) or powder coated
- Ball bearing rollers
- Maintenance-free joints and plain bearings

Application

- Can also be integrated into existing armchairs and sofas

Black RAL 9005 with support bracket
